LETTER

July 24, 1986

Honorable Willlliam J. Casey
Director
Central Intelligence Agency
Washington, DC 20505

Dear Chairman:

In our many meetings with GSA's Information Resources Management Services Department, Mr. Frank J. Carr requested we contact each agency regarding an audit for their basic service and equipment charges from Bell, ATTCOM and ATTIS. GSA requested a meeting with our firm to see how they could benefit from an outside auditing service, which would uncover overcharges from Bell, ATTIS and ATTCOM's in the area of basic service and equipment charges. We have found that GSA had used the records provided by Bell, ATTIS and ATTCOM as the basis of their records. We do an inventory of all service and equipment charges so we can verify what exist against the bills from the above companies.

In providing our services to the City of New York, the State of California and many major government and corporate organizations our results are in the multi-millions of dollars. We feel that our twenty years of experience and significant results could also result in substantial results for your agency.

We would like to meet with you and explain how our fee is based on results with no upfront money for our service.

I will contact you shortly to possibly set up a meeting to discuss our service further.

Sincerely,

Barry B. Francini
